- Temporary & Pop-Up Venues

## Why Clients Choose Forty Two

**One Crew. One Standard.  
Reliability you can trust.  
People who care.  
Engineered for the Real-World.**

*“They care about the outcome as much as we do – and it shows.”*

# Systems Integration

We design and deliver engineered audio, video, lighting, control, and collaboration systems built for clarity, reliability, and everyday simplicity.

## What we do

- **Audio Systems** — PA, DSP, wireless, microphones, monitoring, acoustics
- **Video & LED** — LED walls, projection, cameras, routing, streaming workflows
- **Lighting Systems** — architectural, theatrical, broadcast, and control
- **Control & Automation** — Crestron, Q-SYS, custom UIs, presets, touchpanels
- **Network Infrastructure** — AV-over-IP, fiber, racks, UPS, monitoring
- **Service & Support** — preventive maintenance, updates, and training

### House of Worship

We design worship systems that support clarity, without overwhelming volunteers.

### Courtrooms

Every system is engineered for simplicity, giving judges, clerks, and attorneys trusted tools.

### Education

We engineer classroom, auditorium, and campus-wide systems that enhance learning.

### Corporate

Our boardrooms, training rooms, and meeting spaces are built for reliability and communication.

### Entertainment

From local theaters to national touring houses, we deliver rider-compliant systems.

*“Forty Two took the time to understand how we operate. They designed technology for people, not the other way around.”*

# Event Production

We design, staff, and execute live events with tour-grade precision and the confidence that comes from doing the work every day.

## What we do

- **Audio Systems** — festival PA, line arrays, wireless, RF coordination, monitors, consoles
- **Lighting Systems** — automated fixtures, show lighting, atmospheric effects, control
- **LED & Video** — LED walls, IMAG, cameras, switching, playback, graphics
- **Staging & Rigging** — modular staging, risers, roofs, rigging packages, show infrastructure
- **Logistics & Advance** — pre-production, advancing, timelines, vendor coordination, documentation.

### Concerts & Touring Artists

Tour grade audio, lighting, video, and crew support that deliver consistent, professional shows.

### Festivals & Outdoor Events

Large format production engineered for scale, impact, and multi-day reliability in any environment.

### Community Events & Civic Programs

We provide turnkey production for community gatherings of all sizes, including on-site support.

### Corporate & Special Events

Polished, high-impact production that elevates presentations, brand moments, and communication.

### Sports & Entertainment

High-energy show execution that enhances fan engagement and keeps every game-day running.

*“Our artists and crew always walk away impressed — the production is clean, the communication is clear, and the vibe is professional.”*

# Onsite Infrastructure

We deliver the critical behind-the-scenes infrastructure that makes events safe, reliable, and ready to run.

## What we do

- **Power Distribution** — generators, feeder, distro, camlocks, safety systems
- **Rigging & Structural Support** — motors, truss, roof systems, load calculations
- **Cable Management** — fiber, data, audio, lighting cable runs, protected pathways
- **Staging & Risers** — modular platforms, ADA solutions, choir risers, drum risers, custom layouts
- **Safety Systems** — barriers, cable ramps, emergency lighting, signage

### Corporate & Large-Scale Events

Reliable power, structure, and safety for corporate gatherings, conferences, and large-format events.

### Sports & Arenas

Rigging, power, and staging support for game-day production, special events, and in-venue activations.

### Touring & Live Entertainment

Safe, efficient infrastructure that supports fast turnarounds, strong show flow, and reliability.

### Community & Civic Events

Scalable power, staging, and site lighting solutions that keep public events safe, organized, and reliable.

### Temporary Venues & Pop-Up Environments

Custom site builds, modular infrastructure, and complete behind-the-scenes systems.

*“Forty Two’s [infrastructure] work was rock-solid — safe, clean, and ready ahead of schedule.”*
