

Overall Services

Forty Two designs, builds, and supports the systems, crews, and critical infrastructure that make events, venues, and organizations run with clarity and confidence.

What we do

- Event Production
- Actavation & Direction
- Systems Integration
- Onsite Infrastructure

Where We Work

- Corporate
- Houses of Worship
- Education
- Entertainment
- Sports & Arenas
- Festivals & Touring
- Community Events
- Temporary & Pop-Up Venues

Why Clients Choose Forty Two

Every project — big or small — gets the same engineered process and high performance standard you see in our work.

THAT'S THE FORTY TWO DIFFERENCE.

“They care about the outcome as much as we do — and it shows.”

Event Production

We design, staff, and execute live events with tour-grade precision and the confidence that comes from doing the work every day.

What we do

- **Audio Systems** — festival PA, line arrays, wireless, RF coordination, monitors, consoles
- **Lighting Systems** — automated fixtures, show lighting, atmospheric effects, control
- **LED & Video** — LED walls, IMAG, cameras, switching, playback, graphics
- **Staging & Rigging** — modular staging, risers, roofs, rigging packages, show infrastructure
- **Logistics & Advance** — pre-production, advancing, timelines, vendor coordination, documentation.

Concerts & Touring Artists

Tour grade audio, lighting, video, and crew support that deliver consistent, professional shows.

Festivals & Outdoor Events

Large format production engineered for scale, impact, and multi-day reliability in any environment.

Community Events & Civic Programs

We provide turnkey production for community gatherings of all sizes, including on-site support.

Corporate & Special Events

Polished, high-impact production that elevates presentations, brand moments, and communication.

Sports & Entertainment

High-energy show execution that enhances fan engagement and keeps every game-day running.

“Our artists and crew always walk away impressed — the production is clean, the communication is clear, and the vibe is professional.”

Actavation & Direction

We design, staff, and execute live events with tour-grade precision and the confidence that comes from doing the work every day.

What we do

- **Activation & Direction** — creative concepting, audience journey, show flow, scripting, cue structure, messaging
- **Experience Design** — layouts, environments, engagement points, branding integration, interactive elements
- **Content & Messaging** — scripts, run of show, speaker prep, graphics direction, narrative alignment
- **On-Site Direction** — show calling, stage management, talent coordination, timing control, live adjustments

Concerts & Touring Artists

Systems Integration

We design and deliver engineered audio, video, lighting, control, and collaboration systems built for clarity, reliability, and everyday simplicity.

What we do

- **Audio Systems** — PA, DSP, wireless, microphones, monitoring, acoustics
- **Video & LED** — LED walls, projection, cameras, routing, streaming workflows
- **Lighting Systems** — architectural, theatrical, broadcast, and control
- **Control & Automation** — Crestron, Q-SYS, custom UIs, presets, touchpanels
- **Network Infrastructure** — AV-over-IP, fiber, racks, UPS, monitoring
- **Service & Support** — preventive maintenance, updates, and training

House of Worship

We design worship systems that support clarity, without overwhelming volunteers.

Courtrooms

Every system is engineered for simplicity, giving judges, clerks, and attorneys trusted tools.

Education

We engineer classroom, auditorium, and campus-wide systems that enhance learning.

Corporate

Our boardrooms, training rooms, and meeting spaces are built for reliability and communication.

Entertainment

From local theaters to national touring houses, we deliver rider-compliant systems.

“Forty Two took the time to understand how we operate. They designed technology for people, not the other way around.”

Line Card 2026

We design systems that work in the real world. Clean installs. Clear control. Reliable performance.

AKG Acoustics — microphones, headphones, and wireless solutions

Shure — microphones, wireless systems, and audio capture solutions

Soundcraft — mixing consoles and live sound control

BSS Audio — DSP processing, system control, and Soundweb platforms

dbx Professional — signal processing, dynamics, and DSP

Crown International — professional amplifiers and networked solutions

JBL Professional — loudspeakers, line arrays, and monitoring systems

Lexicon Pro — digital effects, reverb, and audio processing

Martin — automated lighting, fixtures, and dynamic lighting solutions

Crestron — control systems, video distribution, and automation platforms

“The systems are intentional, the performance is clean, and everything just works — from first power-on to final cue.”
